

All I Need's A Little While

Let me tell you a story now
I just want to make you smile
If I don't have one right on hand
Then I'll find one in a while.
And if you've seen through these first few lines
There are other ways we can spend our time
'Cause what's in a story
Except kings and queens and claims to glory?
I got mine
Think about her all the time.

(chorus)

If it takes just a little while – well I got it
If I can only make you smile – I want it
All I need's a little while
A little while
It's so easy
You know it's really kinda easy.

Let me play you something now
Maybe something written special', just for you
It could be something soft and slow
Or full of syncopated downbeats, I don't know
But the tempo and rhythm don't mind
I can change 'em 'round as I change my mind
'Cause what's in a song anyway
Except simple words I needed to say?
I don't mind
You know I write 'em all the time.

(chorus)

If it takes just a little while – well I'll make it
Something else I should do – well I'll forsake it
All I need's a little while
A little while
It's so easy
You know it's really kinda easy.

Let me tell you something now
It doesn't matter what we do
Time lost in thought, maybe some in the shuffle
But the important thing's still you
Ands if you're catching on to the jist of this song
You'd better take it in, it won't last too long
'Cause I'm heading down the back stretch all the way
And anything unsaid now, doesn't matter anyway.
You shouldn't mind
You know I'll tell you anytime.

(chorus)

If it takes just a little while – well that's ok

If I can make you smile – I'd have to say
All I need's a little while
A little while
It's so easy
You know it's really kinda easy.
