**These days – slipping through the cracks
These days – never turning back
These days – just enjoying what I find.**

**Escape – (from) the negativity
Escape – the egos and the vanity
Escape – from the darkness of our time.**

(Chorus)

**By now – I should've been light years away
By now – I could be lost in the canyons
Here's how – I can take you along for the day
Here's how – you can be my companion
Just close your eyes and
Dream of this with me
Just close your eyes
And sing.**

**Believe – In ev'rything this life can be
Believe – in your vast ability
Believe – in the magic that abounds.**

**Embrace – those who bring the light
Embrace – ones who whet your appetite
Embrace – those who join you on the ride.**

(Chorus)

**These days – slipping through the cracks
These days – never turning back
These days – such a joyful waste of time.**

(Chorus)
