## New Year's Day

Another year has fallen by the way  
It was riddled with decay.  
We assign  
Such meaning to this construct we call time  
Our eventual decline.

## (Chorus)

Done and gone  
Everything behind you  
Done and gone.

## I don't need

Traditions and religion to be free  
They're just blind conformity.  
What you believe  
Shouldn't crush another's liberty  
We're created equally.

## (Chorus)

Done and gone  
Leave it where it lays  
It's done and gone.

## (Bridge)

This day - things'll be diff'rent  
This day - I'll make my own way  
This day - you can keep your opinions  
This day - I've made peace with this day.

## Folks on the right

You must allow us freedom to decide  
How best to live our lives.  
Folks on the left  
Get off your ass and vote if nothing else  
And if you're angry - blame yourself.

## (Chorus)

Done and gone  
Kick it in the grave  
It's done and gone.
