

Take It Or Leave It

These are serious days
I can feel it in my bones
Bold moves, fast times, clear signs
No prisoners, no surrender.

(Chorus)
Take it or leave it
I offer my best
Take it or leave it
Soon I'll be gone
Take it or leave it
'Cause one day, none of this'll matter.

There's too much chatter here
No one cares about the content
Posers in a vain attempt at staying relevant
Just slaves to our reaction.

(Chorus)

(Bridge)
Can you imagine
The sweet scent in the air
Summer sun at your back
And the wind in your hair
Fired from a cannon
Shot from a gun
Released from indenture
You're free to run (4x).

No more looking where you've been
Cut it loose if it doesn't serve you
A winding down, a wrapping up, more than enough
The future's yours (3x).

(Chorus)
